# PRODUCT UPDATE

---

090308 **01-25054-xxx PowerRibbon® Guide** September 3, 2008

---

*01-25054-xxx series PowerRibbon® guide couples both a 01-25053-xxx guide insert and a 01-25056-xxx outer guide to offer simpler transactions and a significantly lower price - including quantity based discounts.*

Following up on our commitment to lower the cost of consumables for the PowerRibbon® bonding process, Orthodyne Electronics is releasing a coupled-pair version of the PowerRibbon® guide, that combines convenience of transacting only one part number with a significantly lower pricing.

The new part number combines two existing part numbers, one guide insert and one outer guide:

$$01-25054-xxx = 01-25053-xxx + 01-25056-xxx$$

Currently available sizes are:

- 01-25054-024 for 20 mil wide and 4 mil thick PowerRibbon®
- 01-25054-034 for 30 mil wide and 4 mil thick PowerRibbon®
- 01-25054-040 for 40 mil wide and 10 mil thick PowerRibbon®
- 01-25054-044 for 40 mil wide and 4 mil thick PowerRibbon®
- 01-25054-046 for 40 mil wide and 6 mil thick PowerRibbon®
- 01-25054-064 for 60 mil wide and 4 mil thick PowerRibbon®
- 01-25054-068 for 60 mil wide and 8 mil thick PowerRibbon®
- 01-25054-080 for 80 mil wide and 10 mil thick PowerRibbon®
- 01-25054-082 for 80 mil wide and 12 mil thick PowerRibbon®
- 01-25054-088 for 80 mil wide and 8 mil thick PowerRibbon®

Sizes that are not available on this list may be available as a separate insert and outer guide parts. We do not recommend ordering the individual parts 01-25053-xxx and 01-25056-xxx any more.

**OE Part Numbers:**

<b>01-25054-xxx</b>	PowerRibbon® coupled guide for 3600 and 7200 series machines.
